

ASHISH KUMAR

DEVOPS ENGINEER

PROFILE SUMMARY

DevOps Engineer with 1 year of hands-on experience in building and maintaining CI/CD pipelines, managing cloud infrastructure on Azure and AWS, and automating deployments using Docker, Kubernetes, Terraform, and Ansible. Skilled in monitoring and system reliability using Prometheus and Grafana, with a strong foundation in Linux administration and Git-based version control. Adept at working in fast-paced environments, troubleshooting production issues, and collaborating with development teams to streamline release cycles. Recognized for consistent performance and valuable contribution to DevOps initiatives, with a strong commitment to automation, reliability, and continuous improvement of infrastructure and deployment processes.

WORK EXPERIENCE

DevOps Engineer

2025 – 2026

Talentpull and Infrastructure Private Limited

- Deployed and managed cloud infrastructure on Microsoft Azure and AWS for scalable and reliable application delivery.
- Built and maintained end-to-end CI/CD pipelines using GitHub Actions to automate build, test, and deployment workflows.
- Containerized applications with Docker and orchestrated deployments using Kubernetes to ensure high availability.
- Used Terraform and Ansible for infrastructure-as-code provisioning and automated configuration management.
- Configured and managed Nginx for reverse proxy, load balancing, and secure traffic routing.
- Monitored system performance and set up real-time alerting dashboards using Prometheus and Grafana.
- Administered Linux servers, handled server hardening, and managed source control workflows using Git and GitHub.
- Collaborated with development teams to troubleshoot deployment issues and reduce release turnaround time.
- Maintained documentation of infrastructure setup, deployment procedures, and monitoring configurations.
- Participated in on-call rotations to ensure quick resolution of production incidents and minimal downtime.

KEY PROJECTS

CI/CD Pipeline Automation

- Designed and implemented an automated CI/CD pipeline using GitHub Actions, reducing manual deployment effort and deployment time significantly.

Cloud Infrastructure Migration

- Assisted in migrating on-premises workloads to Azure and AWS cloud environments using Terraform for consistent, repeatable infrastructure provisioning.

Monitoring & Alerting Setup

- Set up a centralized monitoring solution using Prometheus and Grafana to track system health and trigger proactive alerts.

CORE COMPETENCIES

- Cloud Infrastructure Management (Azure & AWS)
- CI/CD Pipeline Design & Automation
- Containerization & Orchestration (Docker, Kubernetes)
- Infrastructure as Code (Terraform, Ansible)

CONTACT

TECHNICAL SKILLS

- Microsoft Azure Cloud
- AWS
- Git & GitHub
- GitHub Actions (CI/CD)
- Docker
- Kubernetes
- Linux
- Prometheus
- Grafana
- Nginx
- Terraform
- Ansible
- CI/CD Automation
- Cloud Infrastructure Management
- Shell Scripting
- Configuration Management

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Time Management
- Communication
- Adaptability

LANGUAGES KNOWN

- Hindi
- English

EDUCATION

Bachelor of Science (B.Sc.)

Kanpur University — 2022

Intermediate (12th)

UP Board — 2019

High School (10th)

UP Board — 2017

HOBBIES & INTERESTS

- Exploring New Cloud Tools

- Open Source Contribution
- Tech Blogging & Reading
- Automation Projects

AWARDS

🏆 Star Performer Award – DevOps

Recognized for strong performance and contribution to DevOps projects.

🏆 Outstanding Contribution Award – DevOps

Recognized for contributions to CI/CD automation, cloud infrastructure, and deployment activities.

- System Monitoring & Performance Tuning (Prometheus, Grafana)
- Linux System Administration & Server Management
- Version Control & Collaboration (Git, GitHub)

KEY ACHIEVEMENTS

- Star Performer Award – DevOps: Recognized for strong performance and contribution to DevOps projects.
- Outstanding Contribution Award – DevOps: Recognized for contributions to CI/CD automation, cloud infrastructure, and deployment activities.

EDUCATION

Bachelor of Science (B.Sc.) — Kanpur University, 2022

Intermediate (10+2) — UP Board, 2019

High School — UP Board, 2017

PROFESSIONAL STRENGTHS

- Strong analytical and troubleshooting skills for resolving infrastructure and deployment issues quickly.
- Quick learner, able to adapt to new cloud tools, platforms, and automation technologies.
- Good team player with the ability to coordinate effectively between development and operations teams.
- Detail-oriented approach towards infrastructure security, reliability, and process documentation.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
