SKILLS

— DevOps & Cloud

- › Git & GitHub
- › GitHub Actions
- › Azure DevOps
- › Microsoft Azure
- › Docker
- › Kubernetes
- › Terraform
- › Linux (Commands)
- › Nginx / IIS

EDUCATION

B.Sc.
Kanpur University

XII - Intermediate
UP Board

X - High School
UP Board

— PROFESSIONAL SUMMARY

Fresher DevOps Engineer with hands-on training experience at **DevOps Insider**. Completed intensive hands-on program covering **CI/CD pipelines, Microsoft Azure, Docker, Terraform, and GitHub Actions**. Passionate about **cloud infrastructure, automation, and deployment workflows**. Eager to contribute to a DevOps team and grow in a real-world cloud and automation environment.

— SKILLS

Version Control	Git, GitHub
CI/CD	GitHub Actions, Azure DevOps
Cloud	Microsoft Azure — VNet, VM, Basic Networking
Containerization	Docker, Kubernetes
IaC	Terraform
Operating Systems	Linux — basic commands, file structure
Web & Deployment	Nginx / IIS

— PROFESSIONAL EXPERIENCE

DevOps Engineer (Internship / Training)

DevOps Insider (Training Program)

2025 - 2026

- ◆ Practiced setting up CI/CD pipelines using GitHub Actions and Azure DevOps during hands-on training at DevOps Insider.
- ◆ Provisioned Microsoft Azure resources including Virtual Machines, VNets, and Blob Storage using Terraform (Infrastructure as Code).
- ◆ Containerized sample applications using Docker, learning image creation, container management, and multi-container setups.
- ◆ Worked with Git and GitHub for version control, branching strategies, pull requests, and collaborative development workflows.
- ◆ Configured Nginx on Linux environment for web server setup and reverse proxy configuration as part of lab exercises.
- ◆ Gained hands-on exposure to Linux commands, shell scripting basics, and file system management in a DevOps context.
- ◆ Deployed infrastructure using Terraform on Azure, understanding state management, modules, and resource provisioning.
- ◆ Completed end-to-end project: provisioned Azure VM infrastructure, containerized an app with Docker, and automated deployment via GitHub Actions.
- ◆ Learned and practiced DevSecOps concepts including secrets management, environment variables, and pipeline security best practices.

— TRAINING & CERTIFICATION

DevOps Engineer Training	DevOps Insider — Hands-on program covering Azure, Docker, Terraform, GitHub Actions, CI/CD, Linux, Jenkins, and Kubernetes. (2025 - 2026)
Microsoft Azure Fundamentals (AZ-900)	Completed foundational Azure cloud concepts, services, and deployment models. (Self-study)
Git & GitHub Proficiency	Version control, branching, pull requests, and collaborative workflows via DevOps Insider labs.
Linux & Shell Scripting	Command line operations, file system management, and basic scripting covered during training program.

— EDUCATIONAL QUALIFICATIONS

Bachelor of Science	Kanpur University
XII / Intermediate	UP Board
X / High School	UP Board
